Dear IFCC Members,

We are writing to you as a national society member of the IFCC as co-chairs of Committee on Internet and Distance Learning (C-IDL) <http://www.ifcc.org/internet-and-e-learning-committee/>

This committee is developing the IFCC eAcademy, an open educational resource containing distance learning material created and/or reviewed by IFCC experts for the continuous professional development of members of IFCC member organizations.

Recently the IOC published its IFCC curriculum. http://eacademy.ifcc.org/media/1127/ifcc_curriculum_ejifcc-2018_291.pdf The IFCC Curriculum was developed by the C-DL to be a guide for IFCC member societies in their development of syllabuses for postgraduate trainees in laboratory medicine. It is also intended to provide a resource for trainees in planning their private study in preparation for academic and professional qualifications.

The C-IDL is tasked with publishing content on the eAcademy site <http://eacademy.ifcc.org/>. That will cover the content described and outlined by the IFCC curriculum. We are reaching out to you as a member society and your expect membership to help us achieve that goal. We all have many conferences that we attend and lecture we prepare for our students that could be recorded and ultimately uploaded to the site. The main requirement at this time is that the content is in English.

We are happy to work with you to provide support to record the materials. IFCC will provide you a web-based platform for content creation in a very simple way.

Please take this opportunity to reach out to your membership and showcase the excellent scientists and educators in your country.

We look forward to working with you

*Eduardo and Loralie
C-IDL Co-Chairs*
